

High credit score

More than 850??? How about more than 950...That's how many credit union lending professionals are reported in the membership of the **CUNA Lending Council**. Collectively, they're focused on the "big three"...mortgage, business and consumer lending. They're at the forefront of today's new normal, tackling TDRs, card concerns, risk-based pricing, member business lending, collections and recoveries and so much more. As a part of this community you can count on Council resources and the expertise of others to score big.
